PBTable
PICKLEBALL CLUB SOFTWARE

Built with UK clubs, for UK clubs

Your whole club night, in one place.

Booking, payments, court allocation and ratings, built for pickleball, not borrowed from tennis or gyms. Most clubs pay for two or three tools to do this. PBTable does the lot for **£19 a month**.

BOOKING AND MONEY

Members book and pay in the app, straight into your club's own bank account. Member and non member prices on one shared list, plus club wallets.

RUNNING THE NIGHT

Courts allocated automatically by rating for round robins, mixers, ladders and box leagues. Printable court slips and quick score entry.

RATINGS FOR PICKLEBALL

RDR rates every game on the scoreline and against what was predicted, so losing 11-10 to a stronger pair helps you.

440+ players

130 graded matches since August

yourclub.pbtable.com your own address

every rating history

> "PBTable does pretty much everything a pickleball club needs, bookings, payments, graded sessions and player ratings, all in one place and, importantly, built specifically for pickleball rather than adapted from tennis. It has taken a huge amount of administration off our hands, and our graded sessions are noticeably better as a result. Once we move bookings onto player wallets, it will also cost us less than the system we previously used. And perhaps best of all, Paul listens to feedback and fixes things in days rather than months, which, in my experience, is not something you often get to say about software."

Club leaderboard LIVE

1	Harry Preston		4.648 63% conf
2	Tom Whitfield		4.464 81% conf
3	Sophie Hayes		4.447 19% conf
4	Marcus Ellery		4.396 63% conf

Confidence rises with games played. Click a player to see their games and how each one moved their rating.

TWO STRAIGHT ANSWERS

Do players need an app?

No. It runs in a phone browser, so there is nothing for your members to download.

What happens to our existing ratings?

We bring them across, so nobody starts from scratch and your grades carry on from where they are.

Have a look for yourself.

Click around a real club board, no sign up and nothing to install. Or I will walk you through it on a call.
